

Announcing the 2017 Assurex Global Employee Benefits Compliance Webinar Series

The Assurex Global compliance webinar series will bring you and your clients timely information on the most important compliance issues facing employers in 2017.

All webinar administration is handled by Assurex Global. You don't have to do anything except invite your clients. Your webinar fee also includes:

- An email invitation for you to send to an unlimited number of clients and prospects
- Webinar materials provided to all registrants in advance
- A list of your client employers who register to attend provided to you for each webinar
- A document with answers to questions posed by attendees during the webinar provided to all participating Assurex Global partner firms.

Assurex Global Partner Firms can choose to participate on a monthly basis or can subscribe for the entire year.

\$395 per monthly webinar

\$3900 for the entire 2017 series (a savings of \$840)

To sign up for a 2017 annual subscription, please contact :

First Quarter 2017 Schedule

January 19, 2017 – Employee Benefits and Medicare Coordination Issues

As the workforce ages, the challenge of coordinating employer sponsored benefits with Medicare increases. Medicare Secondary Payer (MSP) rules prohibit employers from taking certain actions related to employees eligible for Medicare; Medicare entitlement makes employees ineligible for HSA contributions; and Medicare affects employees' and dependents' COBRA rights, to name just a few issues. This webinar will concentrate on how Medicare affects employer sponsored benefits, not on general Medicare coverage and eligibility issues.

February 23, 2017 – Keeping up with Changes to Employee Benefits Rules (Part 1)

The results of the 2016 elections guarantee that many changes will be made to employee benefits rules and regulations in 2017. Even if Congress needs some time to make changes to the law itself, executive and regulatory actions could move very quickly. Also, as soon as the new Congress takes office, new bills are likely to be introduced that will shed some light on the changes we can expect. This webinar focuses on changes and breaking news that will affect employer sponsored employee benefits.

March 23, 2017 – Keeping up with Changes to Employee Benefits Rules (Part 2)

By the end of March 2017, many changes to employee benefits rules will have begun to take shape. Beyond changes to the ACA, we expect to see modifications to HSA rules, adjustment to the tax treatment of employee benefits, and much more. Tune in to this webinar to keep up with changes that are important to employers as they plan their employee benefits strategy for the future.
